EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Eller Jr. on 3/26/2009. The corrections address antecedent basis issues within claim 1.

Claim 1 is amended as follows;

Line 20 should read, "a device for opening flaps of an aluminum foil lining"

Line 22 should read, "to a flap pressing and label housing displacing device..."

Line 24 should read, "the flap pressing and label housing displacing device..."

Line 25 should read, "actuated pistons (45) that drive flap presses,..."

Line 26 should read, "drives pushrods (44)...)

Line 36 should read, "a guide configured to open top and bottom flaps of the aluminum foil lining (51);"

Lines 45-46 should read, "located centrally in the channels in communication with a compressed air pipe line (63) in a cigarette rejection region;"

Line 48 should read, "of a filter tip..."

Lines 61-63 should read, "a frame (71), where to are attached all the fixed components of the machine, and also protection casing elements (7,8), and electrical and electronic parts of the machine, a control panel (21) being located next to the frame (71)."

Claim 3, the status modifier should be "(original)" and not "(original)".

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The closest prior art, US 2,991,879 to Innocenti, US 6,006,438 to Shrider, EP 0447208 to Holmes, and EP 0534623 to Holmes et al. do not teach or suggest all the features of the claimed invention. In particular, in the prior art inspection systems for cigarette packages, the package was either handled using an automatic system to test for proper sealing of the plastic wrapper (see Shrider, which uses a needle to pressurize packages) or, in the case of Innocenti, used brushes and fingers to see if the folded packages could be opened (if they were, they were rejected). The Holmes references disclose machines that open cigarette packages, and obtain the cigarettes from them; however, it uses knives and does not inspect any of the items (see columns 11-13). Therefore, there is no teaching that these inspection systems contain parts, or should be adapted to, open packages and then inspect the cigarettes held within the packages as is claimed on pages 3 and 4 of the claims (claim 1). In particular, several elements are not taught by the prior art to be combined with (1) a package inspection system, followed by a

package opener, and (1) a cigarette storage bin, (2) an inspection drum, and (3) a cigarette inspection device (see pages 3 and 4 of the claims).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL J. FELTON whose telephone number is (571)272-4805. The examiner can normally be reached on Monday to Friday, 7:30 AM to 4:30 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Phillip C. Tucker can be reached on 571-272-1095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
